EA ID #: SUB110002
BFO File Number: 18-02-273

Dear Mr. Mahan and Mr. Thompson:

The New Jersey Department of Environmental Protection (Department) has completed review of the Remedial Action Work Plan received on March 22, 2011. The Department has determined that the Remedial Action Work Plan is in compliance with the Technical Requirements for Site Remediation, N.J.A.C. 7:26E and other applicable requirements, and is in accordance with discussions between the Department and JM Sorge regarding additional required sampling. The Department hereby approves the Remedial Action Work Plan, effective the date of this letter.

This approval is for the Phase II Work Plan submitted to the Department. Once Phase II of the fill sampling is completed, the Department will review the result and all parties

will be in a better position to determine if any additional soil sampling is warranted ("Phase III").

Pursuant to this approval, you shall submit a schedule within 90 days of the date of this approval.. Please submit the document by that date, or submit a written request for an extension at least 2 weeks prior to the due date. Failure to submit the schedule may result in the initiation of enforcement action. For your convenience, the regulations concerning the Department's remediation requirements can be found at <http://www.state.nj.us/dep/srp/regs/> .

Thank you for your cooperation in this matter. If you have any questions, call Steven Mason at (973) 656-4425.

Sincerely,

Dave Oster, Section Chief
Bureau of Northern Field Operations
